## Project Title: Hayao Miyazaki Website

I'd like to build this site as multiple pages, rather than a long, single page website. Typical site navigation probably across the top. I think there is plenty of content and photography to build out individual pages.

- **Home Page/Introduction** – Introduce basic point I want to get across about Hayao Miyazaki's life, career and legacy. Set the tone for his craftsmanship (creation process) and influences on Japanese animation.
- **Early life and Career**
- **Studio Ghibili and Famous Works**
- **Thematic Message and Style** – Inspiration to other animators and the creative industry.
- **Personal Life** – His damaged relationship with his sons in the past due to his dedication to his work.
- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
